

Policy Renewal and Expiration Management Procedures

1. Renewal Notification Timelines

Policyholders receive renewal notices at least thirty days before policy expiration. Notices include any premium changes and coverage updates.

2. Grace Periods for Renewal

There is a grace period of fifteen days after policy expiration during which coverage continues. After this period, policies lapse and claims are not accepted.

3. Automatic Renewal Conditions

Automatic policy renewal occurs only if payment is received prior to expiration and no claims are outstanding.

4. Changes Upon Renewal

The insurer reserves the right to adjust premiums or coverage terms based on market conditions and claim history. All changes are communicated in advance.

5. Expiration Consequences

Once a policy expires without renewal, all benefits cease and reapplication is required for new coverage.

6. Renewal Disputes

Clients disputing renewal terms must notify the company within ten days of receipt of the renewal notice for review and potential adjustment.
