

Order Processing and Approval Policy

1. Order Approval Thresholds

Any order with a total amount exceeding \$10,000 must receive prior approval from a senior manager before processing. This ensures that high-value transactions undergo additional scrutiny to mitigate financial risks and verify customer creditworthiness.

2. Order Fulfillment Timelines

All orders must be fulfilled and shipped within 5 business days from the order date. Delays beyond this timeframe must be reported to the operations manager and justified with valid reasons to maintain customer satisfaction levels.

3. Status Updates for Orders

Orders placed must have their status updated daily to reflect processing stages. Any order remaining in 'Pending' status for more than 3 days requires escalation to the customer service lead.

4. Payment Method Verification

Orders paid through credit card methods must be verified within 2 business days after order placement. Any suspected payment issues must be addressed before shipment.

5. Order Cancellation Policy

Cancellations requested less than 24 hours after order placement can be processed without fees. Requests after 24 hours are subject to a cancellation fee of 15 percent of the order subtotal.

6. Handling of Returned Goods

Returned items valued above \$2,000 require a detailed inspection and approval by the quality assurance team within 72 hours of receipt to evaluate refund eligibility.
